Important Computer Abbreviation and Acronyms Quiz

| Computer Abbreviation | Stands For |
|--------------------------|--|
| ASP | Application Service Provider |
| ADO | Activex Data Objects |
| ADT | Abstract Data Type |
| ADSL | Asymmetric Digital Subscriber Line |
| ADC | Analog-to-Digital Converter |
| ACM | Association for Computer Machinery |
| ACID | Atomicity consistency Isolation Durability |
| ACE | Advanced Computing Environment |
| AAC | Advanced Audio Coding |
| ABC | Atanasoft Berry Computer |
| ABCL | Actor-Based Concurrent Language |
| ABI | Application Binary Interface |
| ABR | Auto Baud-Rate detection |
| ACL | Access Control List |

| AD | Active Directory |
|---------|---|
| AD | Administrative Domain |
| ARPANET | Advanced Research Projects Agency Network |
| ASCII | American Standard Code for Information Interchange |
| ASM | Algorithmic State Machine |
| ARPA | Advanced Research Projects Agency |
| APIPA | Automatic Private Addressing |
| API | Application Programming Interface |
| APCI | Application-Laver Protocol Control Information |
| AOE | ATA Over Ethernet |
| ANSI | American National Standards Institute |
| ASIC | Application -Specific Integrated Circuit |
| AS | Access Server |
| AWT | Abstract Window Toolkit |
| AVC | Advanced Video Coding |
| ATM | Asynchronous Transfer Mode |

| ATA | Advanced Technology Attachment |
|-------|------------------------------------|
| AT | Advanced Technology |
| ASR | Asynchronous Signal Routine |
| AVI | Audio Video Interleaved |
| AAT | Average Access Time |
| AC | Alternating Current |
| AE | Adaptive Equalizer |
| AES | Advanced Encryption Standard |
| АН | Active Hub |
| AI | Artificial Intelligence |
| AL | Autive Link |
| AMR | Audio Modem Riser |
| AA | Anti-Aliasing |
| ALGOL | Algorithmic Language |
| ALSA | Advanced Linux Sound Architecture |
| ALU | Arithmetic and Logical Unit |
| AM | Active Monitor |

| | AMD | Advanced Micro Devices |
|--|-----|------------------------|
|--|-----|------------------------|
